

### **The tenth magazine of the TV series “Step by Step”**

The topic of the tenth magazine of the TV series “Step by Step” is improved quality and greater accessibility to health services.

The **first story** is from Batocina

*Why have Sanja and Ivana, together with other inhabitants of the municipality Batocina, had to travel to larger medical centers, and how today most of the medical exams and analysis can be done much faster at a local care center.*

The **second story** comes from Nis

*How has Dragan Markovic, a longtime blood donor, could see the European standards applied at the Nis Transfusion Institute in the way of collecting, processing and storage of blood that would save someone’s life.*

The **third story** is from Cacak

*Dr Mirjana Paunovic knows all students of the school “November 1<sup>st</sup>” for children with special needs well. She comes to this school every month with a mobile dental team, and visits other people that come across particular obstacles and difficulties when they need a dentist.*
