

The March episodes of the TV series “Recognize Europe” tell the following stories:

1. How has the handling of medical waste in “Studenica” Medical Center in Kraljevo contributed to protection of citizens’ health and environment?
2. Why the canine shelter in Kragujevac has the proper under-floor heating and how else the “Zoo-hygiene” follows the high standards of animal wellbeing?
3. High-school students in Subotica prepare the school papers “A+” for their peers on their own, promoting positive values in life and multiculturalism.
4. Daycare center for children with disabilities “Pebble” in Zajecar implements the latest programs for stimulating the psycho-physical development.
5. How has the Belgrade Municipality Palilula facilitated free small repairs at homes of the most socially endangered citizens?
6. How is the Center for social work in Pancevo dealing with the problem of caring for children who need to be promptly removed from the environments that have an ill effect on them?
7. At the Pozarevac Water Supply, owing to the EU assistance, the main asbestos line that has been leaking frequently and causing problems to citizens has been replaced.
8. How have 50 people from Nis with good business plans started their own businesses under the project “Decrease of poverty through the support of start-up businesses”?
9. For more than half a century, the “Tigar” company from Pirot has been securing scholarships for the best students, thus giving the example to the society how a socially responsible company should act.
10. With the support of the voluntary service of the Belgrade Public Communal Company “Gradske Pijace” (City’s Markets) Students at the Agriculture and Veterinary Faculties learn, through the practical work, how to control food quality and safety
